

Luca-Adrian Mihut

Date of birth: 19/06/2004 | **Place of birth:** Arad, Romania | **Nationality:** Romanian | **Gender:** Male | **Phone number:** (+40) 753629772 (Mobile) | **Email address:** mihut.luca@yahoo.com | **Website:** <https://github.com/lukettoOoO> | **Website:** www.linkedin.com/in/luca-mihut | **Address:** Arad, Romania (Home) | **Address:** Timișoara, Romania (Second Address)

ABOUT ME

Computers & Information Technology student at Politehnica University of Timișoara, passionate about software engineering, Linux, and cloud infrastructure. Driven by practical learning, from developing applications and managing my own home lab to gaining hands-on industry experience.

WORK EXPERIENCE

CLOUD AI RAN INTERN – SC NOKIA NETWORKS SRL – 22/07/2026 – 16/09/2026 – TIMISOARA, ROMANIA

Department: Nokia Cloud AI RAN

Docker, OpenShift (OCP/SNO), Kubernetes, Linux (Rocky 9.4), SR-IOV, HPE iLO, SRE, vCU / vDU

- Planned and deployed containerized edge computing workloads (vCU / vDU) using Docker and Red Hat OpenShift (OCP / SNO).
- Executed bare-metal server bring-up for Single Node OpenShift (SNO), managing hardware cabling, prerequisites, and HPE iLO interfaces.
- Administered Rocky Linux 9.4 environments, configuring core IT services (DNS, DHCP) and high-performance SR-IOV network virtualization.
- Applied SRE principles, health monitoring, and system observability to ensure high availability across cloud nodes.

SOFTWARE ENGINEERING INTERN – NETROM SOFTWARE SRL – 22/06/2026 – 22/07/2026 – TIMISOARA, ROMANIA

Department: Netrom Summer Camp 2026 | **Link :** <https://github.com/lukettoOoO/EcoMeal>

C#, .NET 8, Blazor Server, Entity Framework Core, SQL, Leaflet JS

- Developed EcoMeal, a full-stack web application built with ASP.NET Core Blazor Server (.NET 8) and Entity Framework Core following the Repository Pattern.
- Integrated Leaflet JS and OpenStreetMap REST APIs for interactive mapping, geocoding, and proximity-based business sorting.
- Implemented role-based access control (Customer/Business/Admin), relational database schemas in SQLite / SQL Server, and live order concurrency handling.

EDUCATION AND TRAINING

2023 – CURRENT Timișoara, Romania

BACHELOR'S DEGREE IN COMPUTER SCIENCE AND INFORMATION TECHNOLOGY Polytechnic University of Timisoara, Faculty of Automation and Computer Science, Computers & IT

Languages: Go, Python, C, Java, C#, PHP, TypeScript, SQL

Systems & Networking: Linux (Debian, Rocky Linux/Red Hat), TCP/IP, SSH, Firewalls, DNS/DHCP

DevOps & Tools: Docker, OpenShift, Kubernetes, Ansible, Nginx, Git

Web & Databases: Vue.js, ASP.NET Core, MySQL

Website <https://ac.upt.ro/> | **Field of study** Information and Communication Technologies

PROJECTS

01/02/2026 – CURRENT

Home Lab

Proxmox VE, Windows Server, Debian Server, Docker, Linux, Networking, Nginx

- Built a multi-node homelab running Debian Linux and Proxmox VE for virtual machines.
- Deployed Dockerized services (Nextcloud, GitLab, Netdata) with automated backup scripts.
- Configured secure remote access with Tailscale, Nginx reverse proxy, and UFW firewall rules.
- Administered a Windows Server 2022 virtual machine hosting Active Directory and local DNS services.

Link <https://github.com/lukettoOoO/homelab>

Cloud Computing, PHP, Vue.js, Nextcloud

- Developing a Nextcloud plugin to automate faculty timekeeping and administrative workflows.
- Using a PHP engine for timetable parsing and a Vue.js interface for managing teaching activities.
- Generating compliance-ready reports, fully integrated with the Nextcloud API.

Link <https://github.com/lukettoOoO/DCTI-Staff-Timekeeping-App>

01/10/2025 – 01/12/2025
Multi-threaded TCP Chat System

C, POSIX Threads, Sockets, TCP/IP

- Built a concurrent chat server and CLI client.
- Implemented thread-safe message handling using pthreads.
- Designed a custom binary protocol with checksum validation.

Link <https://github.com/lukettoOoO/TCP-client-server-chat-system>

EXTRACURRICULAR ACTIVITIES

01/10/2025 – 01/02/2026
AI-Assisted Software Development Course

Politehnica University Timisoara

GitHub Copilot, Google AI Studio, Gemini API

- Applied LLMs and prompt engineering for code generation, debugging, and rapid prototyping.
- Built an AI-driven interactive detective game using structured prompting techniques.
- Explored integrating AI tools into full-stack development workflows.
